# Security features for the Examination Portals

- Multi factor authentication using OTP, face recognition, fingerprint recognition
- AWS Web Application Firewall protection (rate limiting, auto block, geo restriction etc.)
- Audit logs - select user events are logged for auditing
- Predefined user roles and rights
- IP based restrictions for access (Whitelisting)
- Browser/client restrictions (Safe Exam Browser etc.)
- Cert-In audit of exam modules.
- Nightly data backups. Launching new Docker containers with restored backups.

# Exam Form Filling and Monitoring

University Admin

## Setting New Exam Session

- Set up new Exam Season
- Set appropriate fees rule
- Enable appropriate faculties and courses for form filling
- Set late fees end date
- Set exam form filling state "Active"
- Set exam season type
- Set applicable subject type
- Set other related details.

## Monitoring status

- Exam forms status by institute, course and state wise can be monitored by college staff as well as by University staff.

The screenshot shows a web interface for monitoring exam forms. At the top, there are filters for Institute, Program, Course, and State. Below these are buttons for 'Pick Institute', 'Pick Program', 'Pick Course', and 'Please select'. There is also a 'Search' button and 'CSV' and 'PDF' export options. Below the filters is a table with the following data:

Institute Name	Active Students		New		Correction		College		Approved	Rejected	Total
