6.2.2
6.2.2
6.2.2 -Institution Implements e-governance in its operations.
6.2.2.1 QnM - e-governance is implemented covering following areas of operation

Preamble

Information and Communication Technology (ICT) has played a pivotal role in effective e-governance, enhancing administrative, finance, academic, and operational functions through digital platforms.

At MITADT University, adoption of ICT-driven e-governance has led to significant improvements in efficiency, transparency, and inclusivity across administration, finance, admissions, and examinations. The university is modernizing its operations and aligning with global best practices by streamlining processes and optimizing financial management.

Additionally, ICT-based reporting has played a crucial role in fostering transparency, providing stakeholders with regular updates and comprehensive overviews of the university's performance.
