

1.1.1

Curricula developed and implemented have relevance to the local, regional, national, and global developmental needs, which is reflected in the Programme outcomes (POs), and Course Outcomes(COs) of the Programmes offered by the University.

Preamble

The curricula developed and implemented at MIT ADT University are designed to align with local, regional, national, and global developmental needs. This alignment is evident in the clearly defined Programme Outcomes (POs) and Course Outcomes (COs) for each program. The following links provide access to essential documents that illustrate this commitment:

Syllabus:

The syllabus for each program at MIT ADT University is meticulously crafted to ensure that it meets the evolving needs of students and the demands of the industry. This comprehensive document outlines the course structure, content, and learning outcomes, reflecting our commitment to academic excellence and relevance. The links below gives access to the syllabus of various programs offered at the University.

Academic Council:

The Academic Council plays a pivotal role in shaping the educational framework at MIT ADT University. This governing body is responsible for ensuring that our programs maintain high academic standards and relevance to current trends and challenges. Using the links below year-wise details on the Council's decisions and initiatives can be viewed.
