

1.3.1

Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment & Sustainability and other value framework enshrined in Sustainable Development goals and National Education Policy – 2020 into the Curriculum.

Preamble

At MIT ADT University, the importance of integrating cross-cutting issues into our curriculum to prepare students for the complexities of the modern world is recognized. The educational framework incorporates themes of professional ethics, gender equality, human values, and environmental sustainability, aligning with the Sustainable Development Goals and the National Education Policy – 2020. These are also color coded in the syllabi. Clicking the link below gives details of how these elements are woven into the academic programs.

Professional Ethics, Gender, Human Values, Environment & Sustainability: MITADTU is committed to fostering a holistic educational environment that emphasizes the significance of professional ethics, gender sensitivity, human values, and environmental sustainability. The curriculum is designed to engage students in critical discussions and activities that promote awareness and understanding of these essential topics. Incorporation of these themes across various courses and programs can be accessed via the links below.
