

3.1.4
Percentage of JRFs, SRFs among the enrolled PhD scholars in the institution during the last five Years

Preamble

MITADTU places a strong emphasis on fostering a robust research environment by supporting its PhD scholars through various fellowship opportunities. Over the past five years, a considerable percentage of enrolled PhD scholars have been awarded Junior Research Fellowships (JRFs) and Senior Research Fellowships (SRFs), which are pivotal in advancing their academic and research careers. This metric stands to the point of MITADTU's dedication to promoting high-quality research and providing financial support through national and international funding agencies. These fellowships not only facilitate the scholars' research pursuits but also enhance MITADTU's academic reputation. The following are the details of the PhD scholars of last years.
