## MIT Art, Design and Technology University, Pune

## 3.4.1

The institution ensures implementation of its stated Code of Ethics for research 3.4.1. 1 The institution has a stated Code of Ethics for research and the implementation of which is ensured through the following:

## **Preamble**

MITADTU is committed to maintaining the highest standards of integrity and ethics in research. To ensure this, a well-defined Code of Ethics for research is implemented across all departments and research activities. This code provides guidelines for conducting research responsibly, promoting transparency, and safeguarding the rights of all involved. MITADTU has established committees, such as the Ethics Committee, to oversee the adherence to these principles, and regular training sessions are conducted to keep researchers aware of ethical practices. This framework helps maintain the credibility and quality of research outputs, ensuring they align with both national and international ethical standards.
