

3.4.2

Number of Patents awarded during the last five years

Preamble

MITADTU has made significant progress in innovation and intellectual property development, as reflected in the number of patents awarded during the last five years. These patents, granted to faculty members with institutional affiliations, represent the culmination of extensive research and development efforts. All patent awards are properly documented, with e-copies of patent grant letters available for verification below. For patents obtained outside India, the necessary compliance with Indian Patent Act provisions is ensured, with foreign filing licenses or corresponding Indian patent application statuses submitted as required. This data is publicly disclosed on the institutional website, showcasing the institution's contributions to cutting-edge research and innovation. Details can be found below:

Sr. No.	Name of the Document	Document Link (Click or Ctrl + Click)
1	E-copies of letter of patents awarded	Link
2	E-copies of the letter of patents published	Link
