

3.4.5
Number of books and chapters in edited volumes published per teacher during the last five years

Preamble

MITADTU has actively contributed to academic knowledge through the publication of books and chapters in edited volumes. Over the last five years, a significant number of teachers have authored and co-authored books and chapters, reflecting their dedication to scholarship and knowledge dissemination. These publications, often with ISBN/ISSN numbers and through recognized publishers, showcase the institution's academic footprint.

For documentation, the e-copies of the cover pages, content pages, and first pages of the publications, along with a list of books and chapters that include links to the source websites are provided. These details are also available on the institution's website for public access, ensuring transparency and acknowledgment of the academic contributions made by the faculty.
