

3.4.8

Bibliometrics of the publications during the last five years based on Scopus/ Web of Science – h-Index of the University

Preamble

The h-Index of MITADTU, based on publications indexed in Scopus and Web of Science over the last five years, reflects the institution's research influence and scholarly impact. This metric demonstrates the university's ability to produce high-quality, widely cited research, showcasing the faculty's consistent contributions to academic knowledge and the university's growing reputation in the global research community. The relevant documentation is as under:

Sr. No.	Name of the Document	Document Link (Click or Ctrl + Click)
1	3.4.7/3.4.8 (a) Number of Scopus citations and h-index of university based on Scopus coverage	Link
2	3.4.7/3.4.8 (b) Number of web of Science citations and h-index of university based on web of Science coverage	Link
